Innovation Hubs

Transferring Technical Expertise into the Central European Region

Regional Cluster Central Europe has started with **10 Digital Innovation Hubs** from **Austria, Czech Republic, Hungary, Slovakia and Switzerland.**

Within DIHs **56 Competence Centers** provide their **technical expertise.** They reach from farmer's organizations, advisory networks and research institutions to Start-Up accelerators, cooperatives and technology centers.

Competence
Centers

As many new activities and initiatives have been started since beginning of SmartAgriHubs project **many more will follow.**
